A Wilson Heater

Will Save 40 Per Cent.
Of Your Fuel Bill

The celebrated Hot-Blast Down-Draft creates perfect combustion, the gases and fumes (40 per cent. of the heating power of wood), ordinarily escaping unburned up the chimney in other stoves, are all consumed and turned into heat in the WILSON. The Wilson is the only heater in the world, which actually burns all of the fuel put into it. The WILSON is air-tight, heat can be regulated to any degree, and will hold a fire for 36 hours. What you save on fuel will pay for a WILSON HEATER in one season. Burns Wood

TO FIGHT IT OUT

Regulars in Senate to Push
Taft Program.

FOR SKELETON RAILWAY BILL

They Have Forty-Three Votes and
Depend on the President to
Club Four Others Into
Line.

Washington, May 5.—Administration senators announced that there would be no weakening in their fight with the insurgent Republicans. They asserted that they would win and save a large part of the administration legislative program.

This announcement was made at the end of a long conference in which, it is asserted, forty-three Republican senators were represented. They met in Senator Aldrich's room to consider whether the dismantling of the railroad bill Tuesday, when the traffic agreement and merger provisions were struck out, meant that the whole administration program had "gone to pot," or whether there was time and a chance to save something out of the wreckage.

When President Taft returns to Washington he will be told that forty-three Republicans of the senate will pledge themselves to carry out his program. He will be asked to use the "big stick" if necessary, to bring four more Republicans, making a majority into line. The administration leaders believe that they can get some Democratic support for most of the Taft bills.

At the conference the political situation was fully considered. All of the senators present agreed that if the party measures failed they would have nothing except "a long empty session of congress" on which to go before the country next fall.

The party leaders say this picture "showed" some Republicans who have wavered on many of the party measures.

President Taft was consulted again over the telephone, but until he returns Friday the program will be incomplete.

The present plans call for the striking out of the sections of the railroad bill under which provision would have been made for the financial operations of railroads and to pass the measure with the commerce court feature and other sections against which no serious objections have been raised.

The plan calls for the consolidation of the traffic agreement provision, the portions of the bill relating to mergers of railroads when one owns 50 per cent. of another, and that part applying to the securities of corporations and their introduction as a measure separate from the railroad bill. It is not thought that such a bill could be voted out of committee.

Other administration measures are to be pressed by the Republicans if they can increase their number to forty-seven. It is said that the insurgents are not to be considered unless they come in unconditionally.

President Taft is said to be in complete harmony with the program.

TAFT MAY VETO BILL
Declares He Will Examine Railroad Measure if One Passes.
St. Louis, May 5.—Possibility of the railroad bill, if one goes through congress, being vetoed was discussed with President Taft and he did not deny that such action might be taken.

When the question of a veto was brought up the president refused to discuss the affair, and laughingly said that he was not as familiar with the measure as it stands as he was when it was presented in the two houses of congress.

This reference to the drastic amendments made in the house and senate among other things, the striking out of the traffic agreement and merger provisions, was followed by the announcement that the president would go over the measure very carefully if it got up to him.

His future action, he added, would depend entirely on the shape in which the measure was at that time.
